WHO WE ARE

hyphen8

Hyphen8 was formed in 2012 to design, build and support Salesforce solutions for nonprofit organisations.

We specialise in grant-making solutions but have broad experience with all types of nonprofit activity including fundraising, membership, finances and impact monitoring.

Proud to be a trusted partner for over 100+ customers ranging from small local charity to some of the largest nonprofits in the UK.

Philanthropy is at the heart of everything we do – we have an active social mission and our goal is to establish a charitable Foundation to fund causes that will make a difference.

We would love to hear from you if you are looking to implement Salesforce for the first time or to take your existing salesforce solution to the next level.
